EDUCATION

University of California, Berkeley | Berkeley, CA

B.A. Computer Science | SCET Certificate in Entrepreneurship and Technology

Aug 2019 – May 2023

GPA: 3.67/4.0

Awards: Regents' and Chancellors' Finalist (2019)

Relevant Coursework: CS 61A: Python and Structure of Programs, CS 61B: Data Structures, CS 70: Discrete Mathematics and Probability Theory, Data 100: Principles and Techniques of Data Science, CS 61C: Computer Architecture

EXPERIENCE

Vote by Mail 2020 | San Francisco, CA

Software Engineer Intern

May 2020 - Nov 2020

- Developed infrastructure via **AWS EC2 & Redshift** to create a centralized data store of nationwide public voter data. Leveraged **Apache Airflow** to develop data pipelines (DAGs) that automates ETL processes to streamline the data store
- Designed heuristic-based population clusters to run **A/B tests** and identified actionable insights to mobilize voter turnout
- Implemented insights to achieve a stat-sig CTR – successfully **registered 40,000+ voters to vote-by-mail** (to date)

Berkeley Consulting | Berkeley, CA

PM (previously Consultant)

Feb 2020 – Present

- Collaborated directly with c-suite at SoftBank-backed renewable energy company to **model** financial viability of **hydrogen** energy market entry in the United States
- Presented report guided by my research into current R&D, regulatory frameworks, and competitive landscape as well as projecting out relevant **supply-chain scenarios** and **evaluating their market trend impacts**

UAVs@Berkeley | Berkeley, CA

Software Developer

Oct 2019 – Feb 2020

- Member of Team Aerobear – developing a drone for Association for Unmanned Vehicle Systems International competition
- Utilized **OpenCV & SciKit-Learn** to classify alphanumeric of various shapes, colors, orientations seen by the drone camera

PROJECTS

Hide My Face | [\[CODE\]](#) [\[APP WEBSITE\]](#)

Jun 2020 – Present

- With recent, highly controversial uses of data, AI, and facial recognition technologies, developed an **iOS app in Swift** to **provide users transparency** into hidden metadata (e.g. location) stored in each image as well as the ability to blur faces
- Utilized **Vision & UIKit** frameworks to automatically blur faces detected in static images. Designed a sleek & intuitive UI to display image metadata through descriptive views & **reverse geocoding** location coordinates onto an interactive 3D map
- Learned to balance memory resources, **deploy asynchronous tasks** to background threads, and craft a streamlined UX

UCSC COSMOS | Santa Cruz, CA

Cluster 5: Game Design [\[CODE\]](#)

Jul 2016 – Aug 2016

- Developed games in Unity utilizing **JavaScript & C#** to define object physics and behavior. Modeled 3D objects on Maya
- Designed & deployed First Person Shooter game "Survive" based on the Mechanics/Dynamics/Aesthetic (**MDA**) framework

LEADERSHIP

Mission San Jose High School | Fremont, CA

Senior Class Officer, Treasurer

Aug 2018 – Jun 2019

- Developed iOS app – scan student IDs to log purchases and allow admittance at school events via **Swift** and **Firestore DB**
- Raised **\$4000+** in **sponsorships** & managed class funds including deposits, expenditures, and requisitions of ~ \$100,000
- Learned to analyze a service/business and **create tools to maximize efficiency** and organize resources to increase profits

MSJHS Computer Science Club | Fremont, CA

President, VP, PR

Aug 2016 – Jun 2019

- Prepared students to compete in USACO and ACSL contests. Taught concepts: ASM, bit-string flipping, big-O notation, etc.
- Organized school-wide events e.g. cryptography challenge to **introduce students, schoolwide, to CS in an exciting manner**

Rewired to Inspire | Fremont, CA

Founder and President

Nov 2015 – Aug 2019

- Led team of 5 to run engaging activities, discussions, and workshops at the local library to restore a sense of community in our technology saturated world for young children and older adults. **Attracted over 40 members** to join our program

SKILLS & INTERESTS

Languages & Environments: Java, Python, Swift, Airflow, Pandas, Xcode, JavaScript, HTML, CSS, SQL, Firebase, OpenCV

Interests: Student Pilot, Food & Aesthetics, Ethics, Sustainability
