EDUCATION

University of California, Berkeley 2023
B.A. Computer Science & Public Policy

EXPERIENCE

Microsoft Aug 2023 – Present

Technical Product Manager, Azure Compute Infra

- Led next-gen AMD infra validation across 32 teams, GA'd 4 months early, recovered a \$XXXM contract
- Implemented Grafana observability dashboards, cutting troubleshooting time from days → minutes
- Debugged critical issues hands-on, enabled 98+% node availability and reduced latency 20%

Product Manager Intern, Edge + Platform 2022

- Talked to 50+ users, defined requirements, built & launched a product improving team collaboration
- Got 60% org-wide adoption in under 3 months

Agri Green 2021

Co-founder / CTO

- Building in agriculture. Applying ReLUs to predict crop yield. Built MVP using Pandas/Jupyter
- Key learnings: iterate fast, stay close to customer, get more data

American Express 2021

Software Engineer Intern

- Developed full-stack web app (Next.js) to help SREs triage incidents
- Integrated REST APIs and secured app access with Okta SSO + HashiCorp key vault

Vote by Mail 2020 2020

Software Engineer Intern

- Built centralized voter data pipeline on AWS EC2 & Redshift. Automated ETL w/ an Airflow DAG
- A/B tested email campaigns: **Registered 50,000+ voters**, generated **1.5M+ impressions**

LEADERSHIP

Berkeley Consulting 2020 – 2023

External Vice President

- Empowered 30 member organization to develop professional skills through curated training

Project Manager (American Heart Association)

- Led 4-person team: competitor analysis + generation of fundraising funnels. Managed client relationship

Consultant

- Advised SoftBank-backed renewable energy company on U.S. hydrogen market viability

PROJECTS

Hide My Face [\[CODE\]](#) [\[APP WEBSITE\]](#) [\[MEDIUM ARTICLE\]](#) 2021

- Inspired by recent, highly controversial uses of personal data, AI, and facial recognition tech
- Built an iOS app (Swift, VisionKit) to automatically blur faces & remove hidden metadata (location). Learned efficient memory usage, async operations, UI design
- Grew app to **15k+ downloads**, reaching **300k+ impressions worldwide**

looking to build tech that empowers people to live a healthier, more fulfilling life
