## EDUCATION

University of California, Berkeley | Berkeley, CA

B.A. Computer Science | Minor: Public Policy

Aug 2019 – May 2023

GPA: 3.67/4.0

Relevant Coursework:

Technical: CS 61B: Data Structures, CS 70: Discrete Math, Data 100: Data Science, CS 170: Algorithms, CS 161: Security

Non-technical: LS 160V: Human Happiness, PP 103: Wealth & Poverty, ECON 172: Sub-Saharan Economic Development

## WORK EXPERIENCE

Microsoft | Redmond, WA

Program Manager Intern

May 2022 – Aug 2022

- hopefully something cool!

American Express | New York, NY

Software Engineer Intern

June 2021 – Aug 2021

- Delivered full stack application, implement dynamic **routing** and **REST API integration** via **Next.js**
- Develop HTTP request-based **API routes** to **call SOR** functions, implement **Okta integration** for SSO access control

Vote by Mail 2020 | San Francisco, CA

Software Engineer Intern

May 2020 – Nov 2020

- Developed infrastructure via **AWS EC2 & Redshift** to create a centralized data store of nationwide public voter data. Leveraged **Apache Airflow** to develop data pipelines (DAGs) that automates ETL processes to streamline the data store
- Designed heuristic-based population clusters to run **A/B tests** and identified actionable insights to mobilize voter turnout
- Implemented insights to achieve a stat-sig CTR – successfully **registered 40,000+ voters to vote-by-mail**

Daily Californian | Berkeley, CA

Oct 2021 – Present

Projects Developer

- Working on a piece analyzing the composition and allocation of UC Berkeley and Stanford's funds over the past 5 fiscal years

## LEADERSHIP

Berkeley Consulting | Berkeley, CA

External Vice President

May 2021 – Dec 2021

- Organized meaningful trainings to allow 30+ members to grow professionally and personally
- Created infrastructure which allowed members to rebuild strong interpersonal bonds post-covid semesters

Project Manager

Jan 2021 – May 2021

- Managed client relationship and **led team of 4** consultants to map out donor profiles via primary research for large health NPO, generated competitor landscape, **developed impact & sustainability analysis** for new fundraising strategies.

Consultant

Feb 2020 – Jan 2021

- Collaborated directly with c-suite at SoftBank-backed renewable energy company to **model** financial viability of **hydrogen energy market entry** in the United States
- Presented report guided by my research into current R&D, regulatory frameworks, and competitive landscape as well as projecting out relevant **supply-chain scenarios** and **evaluating their market trend impacts**

## PROJECTS

Hide My Face | [\[CODE\]](#) [\[APP WEBSITE\]](#) [\[MEDIUM\]](#)

Jun 2020 – Present

- With recent, highly controversial uses of data, AI, and facial recognition technologies, developed an iOS app in **Swift** to **provide users transparency** into hidden metadata (e.g. location) stored in each image as well as the ability to blur faces
- Utilized **Vision & UI Kit** frameworks to automatically blur detected faces in static images. Designed sleek & intuitive UI to display image metadata through descriptive views & **reverse geocoding** location coordinates onto an interactive 3D map
- Learned to balance memory resources, **deploy asynchronous tasks** to background threads, and craft a streamlined UX
- Over **1900+ downloads** across **30+ countries** with over **67,000 impressions** on the **Apple App Store**

## SKILLS & INTERESTS

Languages & Environments: Python, Java, React, Pandas, Swift, XCode, C++, and more!

Interests: student pilot, good food, hiking, happiness, privacy
