EDUCATION

University of California, Berkeley | Berkeley, CA

B.A. Computer Science | Minor: Public Policy

Aug 2019 – May 2023

GPA: 3.54/4.0

Relevant Coursework:

Technical: CS 61B: Data Structures, CS 70: Discrete Math, Data 100: Data Science, CS 170: Algorithms, CS 161: Security

Non-technical: LS 160V: Human Happiness, PP 103: Wealth & Poverty, ECON 172: Sub-Saharan Economic Development

WORK EXPERIENCE

Microsoft | Redmond, WA

Product Manager Intern

May 2022 – Aug 2022

- Conducted customer discovery via **50+ interviews** and **resolved** business impact and **value proposition**
- Wrote functional specifications and coordinated developer team to **create** the MVP, currently in **private preview**

American Express | New York, NY

Software Engineer Intern

June 2021 – Aug 2021

- Delivered full stack application, implement dynamic **routing** and **REST API integration** via **Next.js**
- Develop HTTP request-based **API routes** to call SOR functions, implement **Okta integration** for **SSO access control**

Vote by Mail 2020 | San Francisco, CA

Software Engineer Intern

May 2020 – Nov 2020

- Conducted randomized control trials on identified feature groups to determine ideal target population; thereby **increasing conversion rate by 5x** for digital campaigns. Over **1.5M impressions** on active voters
- Implemented insights to achieve a stat-sig CTR – successfully **registered 40,000+ voters to vote-by-mail** (to date)
- Developed infrastructure via **AWS EC2 & Redshift** to create a centralized data store of nationwide public voter data. Leveraged **Apache Airflow** to develop data pipelines (DAGs) that automates ETL processes to streamline the data store

Daily Californian | Berkeley, CA

Oct 2021 – Present

Projects Developer

- Analyzing the composition and allocation of UC Berkeley and Stanford's funds over the past 5 fiscal years (react.js)

LEADERSHIP

Berkeley Consulting | Berkeley, CA

External Vice President

May 2021 – Dec 2021

- Organized meaningful trainings to allow 30+ members to grow professionally and personally
- Created infrastructure which allowed members to rebuild strong interpersonal bonds during post-quarantine semesters

Project Manager

Jan 2021 – May 2021

- Managed client relationship and **led team of 4 consultants** to map out donor profiles via primary research for large health NPO, generated competitor landscape, **developed impact & sustainability analysis** for new fundraising strategies.

Consultant

Feb 2020 – Jan 2021

- Collaborated directly with c-suite at SoftBank-backed renewable energy company to **model** financial viability of **hydrogen energy market entry** in the United States
- Presented report guided by my research into current R&D, regulatory frameworks, and competitive landscape as well as projecting out relevant **supply-chain scenarios** and **evaluating their market trend impacts**

PROJECTS

Hide My Face | [\[CODE\]](#) [\[APP WEBSITE\]](#) [\[MEDIUM ARTICLE\]](#)

Jun 2020 – Present

- With recent, highly controversial uses of data, AI, and facial recognition technologies, developed an iOS app in **Swift** to **provide users transparency** into hidden metadata (e.g. location) stored in each image as well as the ability to blur faces
- Utilized **Vision & UI Kit** frameworks to automatically blur detected faces in static images. Designed sleek & intuitive UI to display image metadata through descriptive views & **reverse geocoding** location coordinates onto an interactive 3D map
- Learned to balance memory resources, **deploy asynchronous tasks** to background threads, and craft a streamlined UX
- Over **2.6k+ downloads** across **30+ countries** with over **101k impressions** on the **Apple App Store**

SKILLS & INTERESTS

Skills: MS Office. Python, SQL

Interests: Developmental economics, privacy policy, student pilot, good food, hiking, happiness
